

This is a sample picture list to allow you to see how to create your formal picture list for us to follow. These pictures are not the “creative” images of you and your groom/bride, it is strictly formal family photos.

I like to have clients make this list for the photographers, yourself and anyone in the pictures. I would suggest you print out copies for anyone in the images and put a time of when you need them with any instructions they need to follow (e.g. stay around after ceremony for family portraits)

Here is a quick break down of how you create this list:

1. Each line is each image
2. List EVERY person that is suppose to be in the image on EACH line
3. Include both sides of families
4. Don't go to far into extended family (remember these pictures are usually cutting into your creatives with your bridal party and bride/groom.
5. Make sure to include pictures of you and your family ALSO you, your bride/groom and family
6. Include a time/directions for everyone to follow
7. Include "DONE WITH*****" to allow people to know when they are allowed to leave. This helps with them leaving before they are done OR waiting thinking they are still needed.
8. Send your list to both families to have them look over and "sign off" *This helps eliminate the "what about Aunt Sally" the day of the pictures*

Again, these are to allow you to not think during your wedding day

REMEMBER PLANNING BEFORE MAKES EVENTS RUN SMOOTHER FOR **YOU**

-----SAMPLE-----

WHO WE NEED FOR THESE PICTURES AT 5PM

Kylie - Bride
Geoff - Groom
Helen - Grandmother
Joe - Grandfather
Matt M - Brother
Diane - Bride Mother
Bill M - Bride Father
